## Why choose Standard Process hemp supplements?

### Grown on our Organic Farm

Our hemp is proudly grown on our certified organic farm, which helps preserve its exceptional quality from seed to supplement. Our hemp comes from organic, non-GMO strains. The base hemp oil ingredient boasts a diverse array of phytocannabinoids and terpenoids.

### Exceptionally Clean Production Techniques

Our Supercritical Fluid Extraction process provides a full-spectrum extract by utilizing carbon dioxide (CO2) instead of harsh solvents or chemical converting procedures. We also use the whole plant from the ground up (aerial parts), which helps us significantly reduce waste.

### Strict Quality Standards

Each batch of hemp oil is independently tested to ensure it lives up to our high expectations. The result is an ingredient that is pure, potent, and certified organic.
