

## Artemisinin Complex and Myrrh Forte

Give your body the best chance to rebuild naturally\*

### Delivering Health Solutions That Work

MediHerb® was co-founded in 1986 by world-renowned phytotherapist, Professor Kerry Bone. In his words, "Our passion at MediHerb® is to unlock the healing power of plants by combining the time-honored wisdom of traditional knowledge with sound clinical experience and the rigor of scientific research. This quest can only be attained by the total commitment to quality and continuous improvement which permeates every aspect of our endeavors."

In over 25 years of operation MediHerb® has not only demonstrated an unwavering commitment to quality in herbal products, we have redefined it. We believe our unique approach to quality sets a standard for herbal products that is unsurpassed in the world today.

Kerry Bone and over 20 health care professionals work within MediHerb® while still maintaining their own clinical practices. We know from our experience that the quality of a product you take makes a huge difference to the health outcome you experience. We dedicate ourselves to researching and making the best possible products to deliver you health solutions that work.

Give Your Body the Best Chance to Rebuild Naturally

Artemisinin Complex and Myrrh Forte

MEDI HERB®

# Artemisinin Complex and Myrrh Forte

Give Your Body the Best Chance to Rebuild Naturally\*

There's a powerful army at work inside you. It's your immune system and when it's operating at its optimal level, it protects you from the stressors found in our crowded environment. But if your immune system is challenged, or not functioning at its best, you may need to rely on specialized support.

**Artemisinin Complex** (pronounced ar-tee-mis-i-nin) and **Myrrh Forte** are formulated to help protect ourselves from our crowded, complex environment. These products achieve this by helping the body eliminate natural toxins from the body.\*

## What is Artemisinin Complex?

This natural supplement is an exclusive combination of Sweet Wormwood (*Artemisia annua*) herb and Sarsaparilla root – a formulation that helps the body flush and cleanse naturally occurring toxins from the body.\*

Artemisinin has been used in China for thousands of years. Modern clinicians use Artemisinin to cleanse the blood and support the normal elimination of natural toxins from the body. Sarsaparilla is known for its ability to detox and cleanse the body's tissue while also acting as a tonic.\*

## What is Myrrh Forte?

Myrrh is an herb so respected in ancient times that it was valued at its weight in gold. It is also commonly used in Western herbal medicine.

MediHerb's **Myrrh Forte** contains oleo-gum resin from *Commiphora molmol* (Myrrh) to provide natural support for a healthy intestinal environment in an easy to take tablet.\*

## Who Needs Artemisinin Complex and Myrrh Forte?

Adults of any age who want to maintain a healthy immune system and support their body's ability to defend against challenges presented by our environment may benefit from these uniquely efficacious dietary supplements. They help cleanse the blood, support normal flushing of natural toxins from the body and act as tonic support.\*

## How are MediHerb's Artemisinin Complex and Myrrh Forte Unique?

Both are manufactured in Australia to the meticulous standards of international pharmaceutical Good Manufacturing Practice.

**Artemisinin Complex** and **Myrrh Forte** are subject to stringent quality criteria, applied to both raw material and finished product.

For example, the quantity of artemisinin in Sweet Wormwood is measured initially using ultra high-performance liquid chromatography, and regularly monitored.

MediHerb® has worked with manufacturers to successfully produce Myrrh in tablet form from the thick and sticky resinous plant material that is quite difficult to work with. This unique Myrrh resin has been assessed to meet the desired phytochemical activity levels to ensure it delivers a therapeutic result.\*
