

Drenamin® contains vitamins that are involved in healthy adrenal gland functions and the production of neurotransmitters associated with emotional balance*

- Involved in healthy adrenal gland functions
- Supports a healthy immune response to everyday environmental stressors
- Supports energy production and metabolism
- Contains vitamins that are involved in the production of neurotransmitters associated with emotional balance*
- Includes whole food-based ingredients and other ingredients also found in Cataplex® C, Cataplex® B₂, and/or Drenatrophin PMG®
- Excellent source of riboflavin and niacin
- Good source of vitamin B₆ and antioxidant vitamin C

Adrenal Health

Vitamin C is found in high concentrations in the adrenal glands and plays a role in the natural stress response as a cofactor in the synthesis of catecholamines: the “fight or flight” hormones secreted by the adrenal glands.¹⁻³ Vitamin B₆-dependent enzymes are also required for the biosynthesis of epinephrine and dopamine — two other important neurotransmitters.⁴

Healthy Immune Response

Vitamin C is an antioxidant, which is critical to a healthy immune system by helping to manage oxidative stress, supporting the maturation of T cells, stimulating leukocyte function, and playing a role in natural killer (NK) cell activity.⁵⁻⁸ Vitamin C is also important for white blood cell function as well as the maintenance and regeneration of cells.^{6,8-9} The B vitamins riboflavin (B₂), niacin (B₃), and pyridoxine (B₆) may also play a role in immune function.¹⁰

Emotional Balance

Dietary intake status of select nutrients — which includes niacin (B₃), riboflavin (B₂), and vitamin B₆ — is associated with mental health status with regard to mood and optimal neurological functioning.¹¹⁻¹³ Vitamin B₆ is a cofactor for the synthesis of GABA, serotonin, and dopamine.¹⁴⁻¹⁵

Supplement Facts

Serving Size: 1 Tablet
Servings per Container: 30

	Amount per Serving	%Daily Value
Vitamin C	9 mg	10%
Riboflavin	1 mg	77%
Niacin	12 mg	75%
Vitamin B6	0.3 mg	18%
Choline	10 mg	2%
Sodium	5 mg	<1%

Proprietary Blend 613 mg †
Calcium lactate, rice bran, bovine liver, bovine adrenal, porcine stomach, nutritional yeast, organic buckwheat (aerial parts) juice powder, organic buckwheat flour, bovine adrenal PMG™ extract, organic alfalfa (aerial parts) juice powder, magnesium citrate, organic oat flour, bovine bone, organic shiitake mushroom powder, organic reishi mushroom powder, porcine brain, veal bone PMG™ extract, organic sweet potato, and sunflower lecithin.

†Daily Value not established.

Other Ingredients: Cellulose, honey, choline bitartrate, niacinamide, ascorbic acid, calcium stearate, riboflavin, d-alpha tocopherol (vitamin E sunflower), and pyridoxine hydrochloride.

Standard Process products labeled as **Gluten-Free** have been tested to verify they meet the regulations associated with the United States Food and Drug Administration's gluten-free labeling. Standard Process products labeled as **Non-Dairy** or **Non-Dairy Formula** have been formulated to not contain milk or milk-derived ingredients. Standard Process products labeled as **Non-Soy** or **Non-Soy Formula** have been formulated to not contain soy or soy-derived ingredients.

Key Nutrient Support in Drenamin®

	Riboflavin	Niacin	Vitamin B ₆	Vitamin C
Supports energy production and metabolism*	●	●	●	●
Involved in healthy adrenal gland functions*				●
Supports a healthy immune response to everyday environmental stressors*		●	●	●
Contains vitamins that are involved in the production of neurotransmitters associated with emotional balance*		●	●	
Single Serving (1 tablet per meal)	1 mg (77% DV)	12 mg (75% DV)	0.3 mg (18% DV)	9 mg (10% DV)
Daily Dose (3 tablets per day, at 1 tablet per meal)	3mg (231% DV)	36mg (225% DV)	0.9mg (54% DV)	27mg (30% DV)

The **great majority** of the raw plant ingredients used in our products are grown on our certified organic farm

Freshly picked crops are often processed within a day to maintain vital nutrients

We harvest more than **6.5 million** pounds of ingredients on our certified organic and sustainable farm

Healthy Soil. Healthy Plants. Healthy Lives.

Standard Process is a family-owned company dedicated to making high-quality and nutrient-dense supplements for more than 90 years.

We apply a holistic approach to how we farm, manufacture, and protect the quality of our products. This comprehensive strategy ensures that our clinical solutions deliver complex nutrients as nature intended. It's how we define the whole food health advantage.
