Epimune Complex

Features of Epimune Complex:
- Supports specific aspects of immune system activity and contains research-supported ingredients such as EpiCor® and maitake and turkey tail mushrooms*
- Supports healthy white blood cells
- Helps support respiratory health year-round, especially during seasonal challenges
- Helps activate and balance a healthy immune system response function
- Delivers an excellent source of vitamin C and zinc, both of which provide antioxidant and immune support*

Key Ingredients:
- Maitake mushrooms and Turkey tail mushrooms support immune system response function
- Vitamin C provides antioxidant support and immune support
- Zinc supports immune functions, zinc-dependent enzymes and tissue repair
- EpiCor® see next page

Vegan Immune Support

Epimune Complex provides balanced immune support with whole food fermentate (EpiCor®), maitake and turkey tail mushrooms, vitamin C and zinc. In an open-label study, (n=25) subjects consumed two Epimune Complex daily for 30 days that resulted in:
- Salivary IgA increase by 11.4% from baseline (this was not statistically significant)
- Overall increase in multiple immune markers (humoral and cellular)
- 26.4% increase in zinc level in red blood cells from baseline (p=0.014)

**Epimune Complex**

**EpiCor®**

EpiCor® is a whole food fermentate comprised of proteins, fibers, polyphenols, vitamins, amino acids and beta glucans that have been clinically shown to provide significant immune health benefits.\(^4\)\(^-\)\(^9\) In a recent study on EpiCor®, a 500 mg daily dose (n=80) led to a statistically significant improvement of symptoms such as bloating/distension, feeling of fullness and daily total scores in the moderate subgroup.\(^10\) Subjects receiving EpiCor® had a significant decrease in the less favorable bacteria than with a placebo.\(^10\)
