

Complex Immune Support, *Simplified**

The immune system is a body-wide defense network, and its support strategy must be equally diverse. That's why Standard Process created **Immune System Health Packs**. They conveniently contain a number of products that deliver a variety of vitamins, minerals, and nutrients to help reinforce a number of body systems.

Immune System Health Pack - Vegetarian contains:

Epimune Complex

- Supports specific aspects of immune system activity and contains research-supported ingredients such as EpiCor® and maitake and turkey tail mushrooms*
- Supports healthy white blood cells*
- Helps support respiratory health year-round, especially during seasonal challenges*
- Helps activate and balance a healthy immune system response function*
- Delivers an excellent source of vitamin C and zinc, both of which provide antioxidant and immune support*

Cataplex® D

- Encourages healthy calcium absorption from the intestinal tract into the blood*
- Supports healthy immune system response function*
- Supports and maintains healthy bone density*
- Provides vitamin D, which is needed by almost every cell in the body for development and transcription*
- Excellent source of vitamin D and antioxidant vitamin A

Echinacea-C™

- Supports healthy white blood cells*
- Supports a healthy immune system response function*
- Combines *Echinacea angustifolia* (root) and *Echinacea purpurea* (root)

Suggested Use: Two packs per day.

Immune System Health Pack contains:

Immuplex®

- Taken daily, supports a healthy immune system response function*
- Helps maintain normal white blood cell activity already within a normal range*
- Provides ingredients with antioxidant activity*
- Excellent source of Iron, Zinc, Copper, Chromium, Folate and vitamins A, B6, and B12 and antioxidant vitamins C and E
- Good source of selenium

Cataplex® F

- Supports the body's inflammatory response function as it relates to periodic challenges*
- Provides lipids for the formation of eicosanoids*

Cataplex® C

- Supports and promotes normal immune system response function*
- Good source of antioxidant vitamin C
- Provides ingredients with antioxidant activity*
- Supports the adrenal glands*

Calcium Lactate

- Provides additional support for the immune system response function*
- Good source of calcium and magnesium

Suggested Use: Three packs per day.
