

VF Bio-Dent®
Contains Tested,
Trusted Ingredients

Manganese

Bones have higher manganese concentrations than other tissues, and manganese is a component of tooth enamel¹

Calcium

Required during growth and development of bone and soft tissue mass

Phosphorus

Adequate dietary phosphate intake is necessary for formation and maintenance of tooth health²

Changing Lives
Since 1929

Give Your Pet Something to Smile About

With VF Bio-Dent® for Pets

Nutrition is a powerful tool that can complement brushing and support pet oral health. That's why VF Bio-Dent® for Pets is designed to encourage healthy oral tissue for your beloved animal.

It contains ingredients that support the bony structures and connective tissue in the body, including the mouth.

How VF Bio-Dent® Can Support Your Pet

- Contains many of the building blocks needed to support and maintain oral health
- Provides systemic support that can help ensure an overall healthy mouth
- Provides building blocks for young animals that are experiencing tooth and bone growth and development

Proper Dental Care Can Contribute To:

- Healthy teeth
- Healthy bones
- Healthy oral tissues
- An overall healthy mouth

Synergistic Product Support

CANINE IMMUNE SUPPORT

Supports optimal immune system function for dogs

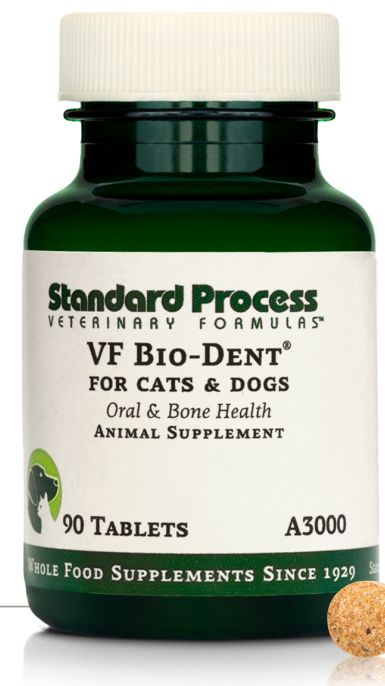

FELINE IMMUNE SUPPORT

Supports optimal immune system function for cats

VF Bio-Dent® for Cats & Dogs

Contains: 90 tablets

Indications for Use:

- Support for normal growth and development of bone and the oral cavity
- Support for the health of oral tissues
