

## Dose Schedule:

1-10 lbs 1 tablet 2x / day

## How to Administer

The feline patient should receive one tablet two times per day, or as directed.

Feline formulas can be administered in a variety of ways, including:

- Whole tablet or crushed
- Dosed directly or mixed with food
- Cautiously, as a powder suspended in water given by oral syringe

To familiarize the cat with the supplement, it may be helpful to place one tablet beside the food bowl for two or three days prior to mixing the tablet with the food.

## Guaranteed Analysis:

Sodium (max) 5 mg / tablet  
Zinc (min) 180 mcg / tablet  
Chromium\* (min) 5 mcg / tablet

AAFCO Disclaimer: \*Not recognized as an essential nutrient by the AAFCO Dog (or Cat) Food Nutrient Profile.

## BENEFITS

- Provides general multisystem support for daily maintenance of all body systems with emphasis on a healthy endocrine system
- Is an excellent nutritional foundation for use with all other system-support formulas

## Contains Ingredients From Our Certified Organic Farm:

Pea Vine

Alfalfa

Beet Blend

Buckwheat

Kidney Bean  
Extract

## Other Ingredients that Provide Essential Nutrients:

- Zinc Rice Chelate
- Green Lipped Mussel Powder
- L-carnitine
- Bovine Trachea
- L-glutamine
- Bone Meal

## Provides General Multisystem Support for Daily Maintenance of All Body Systems

Maintaining feline health involves supporting all body systems. Cats benefit from a diet that is rich in a variety of complex nutrients and supplements made from whole foods, organ and tissue extracts, botanicals, and other ingredients that can help fill nutrition gaps. Though nutritional needs can change based on age, activity level, and health status, Feline Whole Body Support provides general multisystem support for daily maintenance of all body systems - either on its own or with other system-support formulas.

## The Standard Process Difference:

Standard Process Veterinary Formulas™ utilize the same state-of-the-art manufacturing processes and high-quality ingredients used to produce our human supplements.

They are made with human-quality ingredients in the same manufacturing plant as our human formulas.

## How We Formulate Our Feline Products:

Since cats are obligate carnivores, our feline formulas contain fewer ingredients and focus more on specialized protein extracts. These ingredient combinations provide a wide range of nutrients to support multiple body systems.

## Protomorphogen™ & Cytosol™ Brand Extracts

Continuing the pioneering work of Dr. Royal Lee, certain Standard Process® products contain specific **Protomorphogen™ brand extracts** (PMG).

Protomorphogen™ brand extracts are specific materials extracted from animal glands and organs through a complex process to retain what Dr. Lee termed “cellular determinants.” Current laboratory methods have confirmed that Protomorphogen™ brand extracts contain nucleotides (the components of nucleic acids like RNA and DNA), and peptides (short chains of amino acids).

**Cytosol™ brand extracts** are derived from the cytoplasm of selected organs and glands through a process similar to the PMG extraction process. However, these extracts contain their own unique profile of nucleotides and peptides.

## Synergistic Products

For a complete list of products, visit [standardprocess.com/Veterinary-Formulas](https://standardprocess.com/Veterinary-Formulas)

### Feline Immune System Support

Provides nutritional and biochemical support for healthy immune cells and tissues in cats

### Feline Renal Support

Facilitates support and natural rehabilitation of the kidneys

### Feline Cardiac Support

For cats in need of general cardiac support or with increased cardiac workload

### Feline Hepatic Support

Supports liver metabolism, hepatic circulation, bile production and flow

Family-Owned Company

Certified Organic Farm

## Healthy Soil. Healthy Plants. Healthy Lives.

Our mission of helping people and animals starts on our certified organic farm.

Organic certification ensures that there are no synthetic pesticides and no genetically modified organisms (GMOs) used to grow our crops.

Our expertise in cultivating healthy soil allows us to maximize the nutrient density in our products. This helps us deliver nutrition that's as close to nature as possible and make products that have changed lives for 95 years.

## Changing Lives with Nutrition

### Standard Process:

- Is committed to changing lives with a whole food philosophy
- Grows many ingredients on the Standard Process certified organic farm in Wisconsin
- Is serious about quality
- Makes products to support the health of the whole family
- Teams up with health care professionals
- Has been trusted for generations, with products that have been changing lives since 1929
