Discover the Benefits of Research-Supported Ingredients

with Mushroom Complex

As a beloved family member, your pet's health is precious. From their first vet visits to their senior years, they're exposed to challenging situations on a daily basis. Fortunately, Mushroom Complex can support your cat or dog in multiple ways — everything from the immune system, to digestive health, to cellular health, and beyond.

Synergistic Product Support

CANINE & FELINE WHOLE BODY SUPPORT

Provides general
multisystem support

CANINE & FELINE IMMUNE SYSTEM SUPPORT

Supports optimal
immune system function

VF THYMEX®

Supports a healthy thymus
gland and immune system

The Standard Process Difference

MUSHROOM SOURCING

Each mushroom extract is made from organic fruiting bodies (not mycelium) and is either wildcrafted, cultivated on logs, or grown on sawdust.

ANCIENT OATS

We utilize ancient oats grown on our certified organic farm. They provide a unique profile of beta glucan fragments and deliver important bioactives.

TESTED & TRUSTED

Mushroom Complex was created at the Standard Process Nutrition Innovation Center and shown to have general acceptance by a range of dogs.

Indications for Use:

- Senior cats and dogs
- Puppies and kittens with developing immune systems
- Cats and dogs facing normal immune and GI challenges
- Cats and dogs in need of additional support for healthy inflammatory processes

Suggested Use:

Administer orally. Best if given with food. Includes ½ tsp scoop in each 2.92oz (83g) bottle

Dogs

0-8 lbs	¼ teaspoon once per day
9-20 lbs	½ teaspoon once per day
21-52 lbs	1 teaspoon once per day
53-90 lbs	1½ teaspoon once per day
91-131 lbs	2 teaspoon once per day

All Cats ½ teaspoon once per day
