WHOLE FOOD SUPPLEMENTS SINCE 1929

# Mushroom Complex Provides Whole Food-Based Nutrition Beyond the Bowl

Support several body systems with one product

There is an increased focus on all aspects of your patients' wellness — everything from the immune system, to the digestive environment, to their stress and inflammation. While these may seem like separate entities, they often demand the same nutrients to function at their best.

When you offer Mushroom Complex from Standard Process Veterinary Formulas™, you're empowering pet parents to take an active role in their approach in their pet's wellness. It's made with research-supported mushrooms that are shown to have a positive effect in a number of ways.

## THE STANDARD PROCESS DIFFERENCE

### MUSHROOM SOURCING

Each mushroom extract is made from organic fruiting bodies (not mycelium) and is either wildcrafted, cultivated on logs, or grown on sawdust.

### ANCIENT OATS

We utilize ancient oats grown on our certified organic farm. They provide a unique profile of beta glucan fragments and deliver important bioactives.

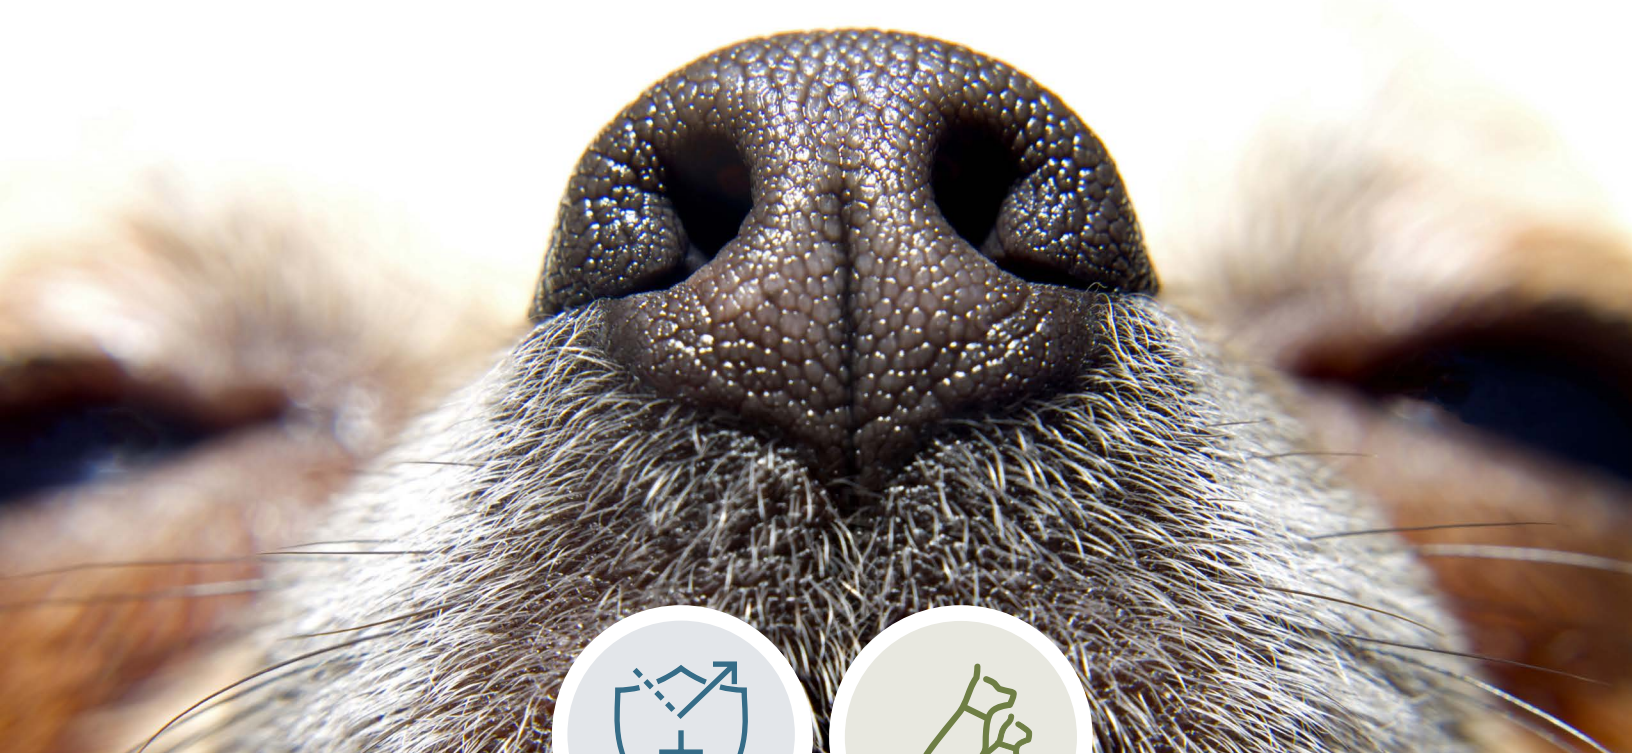

### TESTED & TRUSTED

Mushroom Complex was created at the Standard Process Nutrition Innovation Center and shown to have general acceptance by a range of dogs.

## Mushroom Complex is Made with Research-Supported Ingredients

**150 mg**

### Mushroom Beta Glucans Per Serving

Important biological response mediators which:

- Help stimulate pattern recognition receptors (PRRs)<sup>1</sup>
- Encourage healthy immune function
- Demonstrate strong support for antioxidant activity<sup>2-4</sup>
- Promote cellular protection<sup>5</sup>
- Help modulate the cell cycle and cell proliferation<sup>6-8</sup>
- Aid in the normal tissue repair process<sup>9</sup>

**171 mg**

### Per Serving of Bovine Colostrum

An ingredient associated with dog and cat wellness. It helps support:

- Immune system health
- Normal inflammatory processes
- Intestinal health
- Microbiome health

**428 mg**

### Per Serving of Research-Backed Mushroom Extract Blend

LIONS'S MANE

# Together, We Can Change Lives

Changing lives is our passion and has been since our company's inception in 1929. This passion is what drove our founder, Dr. Royal Lee, to develop and pioneer the first whole food-based supplement on the market, the revolutionary Catalyn®.

---

## At Standard Process:

We change lives with our whole food philosophy.

We grow ingredients on our certified organic farm in Wisconsin.

We're serious about quality.

We make products to support the health of the whole family.

We team-up with health care professionals.

We've been trusted for generations. Our products have been changing lives since 1929.
