- Teams-up with health care professionals
- Has been trusted for generations, with products that have been changing lives since 1929

Appetizer, Entrée, Dessert, Zypan®

For Healthy Digestive Support

Like many Americans, your days are incredibly busy — so busy that high-quality nutrition can sometimes become less of a priority. While fast food might be one challenge that your body faces, it’s not the only one; important digestive levels often decrease as the body ages. When this happens, proper supplementation may give the body the support it needs.

Zypan® combines key ingredients — pancreatin, pepsin, and betaine hydrochloride — to support the GI tract environment and encourage healthy digestion.*

How Zypan® supports the digestive GI tract environment

- **Betaine HCl**
  Hydrochloric acid is involved in maintaining proper gastric pH

- **Supports macronutrient digestion**
  with Pepsin & Pancreatin

Zypan®

Suggested Use: Two tablets with each meal, or as directed. Chewing this product is not recommended.

• Supports macronutrient digestion*
• Contains hydrochloric acid, which is involved in maintaining proper gastric pH
• Includes stearic acid to coat the pancreatin, helping it to be digested in the correct area of the digestive tract
• Provides enzymatic support for protein digestion
• Supports the digestive environment of the GI tract*
