Hemp Oil and Hemp Oil Complex™

Endocannabinoid System (ECS) Support

What is the Endocannabinoid System (ECS)?

The ECS is perhaps the most important physiological system involved in establishing and maintaining optimal health. The ECS helps to support the central nervous system, the gastrointestinal system, the immune system, hormones, bones, muscles, and more. **Our hemp oil products support the ECS.***

Hemp Oil

Provides 15 mg of phytocannabinoids per serving to support the endocannabinoid system.*

- Liquid form
- Convenient, flexible dosing with a graduated dropper
- Non-genetically engineered and organic hemp

Standard Process products labeled as **Vegan** are devoid of animal-based tissue, animal-based gelatin, or fish oils. They are also devoid of animal-based ingredients such as dairy, eggs, honey, beeswax, and lanolin. **Gluten-Free** have been tested to verify they meet the regulations associated with the United States Food and Drug Administration's gluten-free labeling. **Non-Dairy** or **Non-Dairy Formula** have been formulated to not contain milk or milk-derived ingredients. **Non-Soy** or **Non-Soy Formula** have been formulated to not contain soy or soy-derived ingredients. **Non-Grain** or **Non-Grain Formula** have been formulated to not contain any true cereal grain or grain-derived ingredients such as those from wheat, rice, oats, cornmeal, barley, or another cereal grain. **USDA Organic** means they have been certified as Organic by a USDA-accredited certifying agent.

Why Choose Hemp Oil or Hemp Oil Complex™ from Standard Process?

Grown on our Organic Farm

Our hemp is proudly grown on our certified organic farm[^], which helps preserve its exceptional quality From Seed to Supplement™. Our hemp comes from organic, non-GMO strains. The base hemp oil ingredient boasts a diverse array of phytocannabinoids, terpenoids, and a fresh taste that's highlighted by citrus notes.[^]

Exceptionally Clean Production Techniques

Our Supercritical Fluid Extraction process provides a full-spectrum extract by utilizing carbon dioxide (CO2) instead of harsh solvents or chemical converting procedures. We also use the whole plant from the ground up (aerial parts), which helps us significantly reduce waste.

Strict Quality Standards

Each batch of hemp oil is independently tested to ensure it lives up to our high expectations. The result is an ingredient that is pure, potent, and certified organic.
